Block Center

Children learn...

- Cooperation and joint verbal planning
- Individual creativity in construction
- Organization of space
- Problem solving skills
- To classify, sort, match, and compare
- To explore math concepts of size, shape, number, pattern, and position
- To explore science concepts of balance and gravity
- Communication skills
- Eye-hand coordination
- Creativity
- New words
- Pride and self-confidence
- Design skills
- Cause and effect

Volunteers help by...

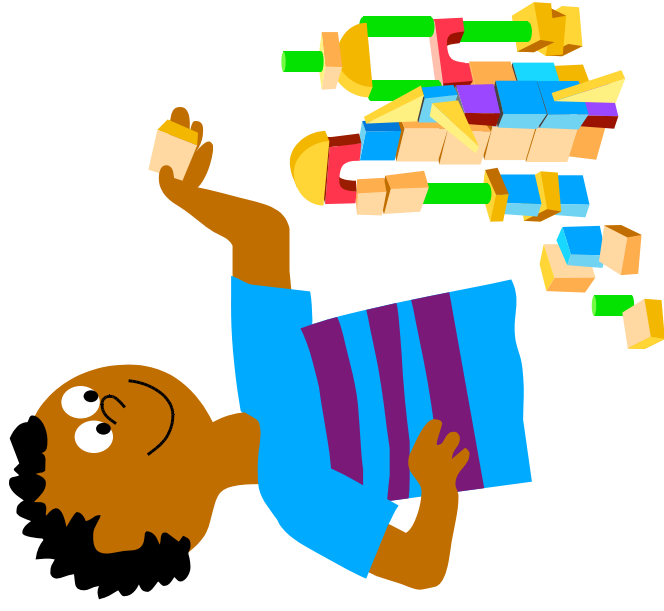

- Adding new materials for themes or projects
- Building with the children
- Asking about a child's work (How many blocks did you use?)
- Helping children find various weights and shapes
- Reading books about building to, and with, children
- Recording stories about projects (dictation)
- Taking pictures of children's creations
- Helping to sort and store blocks
